3. (1.) The Board is hereby authorized to borrow further money for the purposes of the principal Act not exceeding the sum of one hundred thousand pounds, and section fifty-six of the principal Act shall be read and construed as if the words “five hundred and fifty thousand pounds” had been originally inserted therein instead of the words “two hundred thousand pounds.” Borrowing-powers.

Drainage and Sewerage Acts Amendment.

(2.) The words "by instalments" in section seventy of the principal Act are hereby repealed, and the words "or under the provisions of any agreement with the Board or otherwise" inserted therein after the word "Act" wherever such last-mentioned word occurs in the said section, and the said section shall be read and construed as if the alterations hereby made therein had originally been made therein.

4. (1.) The Board may, by resolution, from time to time appoint and remove and reappoint a Deputy Drainage Engineer and a Deputy Secretary respectively.

(2.) The provisions of section twenty of the Amendment Act, 1906, shall apply to every such appointment.

(3.) Unless otherwise directed by the Board, all the duties and powers by the principal Act or any amendment thereof, or the by-laws for the time being of the Board, or any deed, contract, or other instrument (whether the Board be a party to such deed, contract, or instrument, or not) imposed upon, vested in, or exercisable by the Drainage Engineer of the Board, shall be imposed upon and be exercisable by the Deputy Drainage Engineer for the time being as well as the Drainage Engineer; and the expression "Drainage Engineer" in any such Act, by-law, deed, contract, or instrument shall include the Deputy Drainage Engineer.

(4.) The provisions of the last preceding subsection shall, *mutatis mutandis*, apply to the Secretary and Deputy Secretary of the Board.

5. (1.) The Board may, by notice in writing, require the owner of any premises situated within the district to construct and provide any sanitary convenience or sanitary appliance in connection with such premises, and, in particular, may require the owner of a group or block of contiguous, or adjacent, or detached, or semi-detached buildings to construct and provide one water-closet for each such building.

(2.) The incorporation of old work in any single drain or drain in common heretofore or hereafter provided, constructed, or laid by or by permission of the Board shall not prevent the Board from requiring new work to be substituted for such old work.

(3.) If and whenever the Board shall in any part of the district construct a sewer to operate on the separate system with a sewer existing at the date of the passing of this Act, and shall require the connection with such new sewer of a drain in common existing at the time of the construction of such new sewer, the Board may make such connection (including the providing, constructing, and laying of a new drain in lieu of any part of such drain in common) at the cost of the owners of the premises served by such drain in common; and such cost shall be apportioned between or amongst and paid by such owners notwithstanding any previous apportionment (if any) of the cost of such drain in common; and paragraphs (a) to (f), both inclusive, of section six of the Amendment Act, 1906, shall extend and apply to the cost of such new connection.

(4.) The Board may require and direct any works ordered pursuant to section twenty-five of the principal Act to be connected to a drain in common.

(a.) The provisions of this subsection shall not apply if the owner or his predecessor in title shall have already contributed to the cost of such drain in common.

(b.) The moneys received by the Board pursuant to this subsection shall be held in trust for such persons as would be entitled to any compensation payable under the said Acts if the premises served by such drain in common had been taken by the Board under the provisions of the said Acts or the Public Works Act, 1908, and in such proportions as the Drainage Engineer shall certify in writing.

(c.) Paragraphs (d), (e), and (f) of section six of the Amendment Act, 1906, shall, *mutatis mutandis*, apply to the moneys payable to the Board under or by virtue of this subsection and to the premises of the said owner, and the charge shall take effect from the date of any notice or order given by the Board under or by virtue of the last preceding subsection.

(6.) The powers conferred upon or vested in the Board under or by virtue of the said Acts, and, in particular, section twenty-six of the principal Act and section twelve of the Amendment Act, 1907, shall extend and apply to two or more premises vested in one owner, although the estate or interest of such owner in any of such premises be less than the fee-simple; but in such case the said respective premises shall for the purposes of the charge created by or by virtue of the said Acts, and the liability for and the recovery of the amount thereof and interest thereon, be regarded and treated as if the said premises were separately owned; and the cost of any works, materials, or things executed, provided, or done by the Board on or in connection with the drainage, sewerage, or sanitation of such premises shall be apportioned by the Drainage Engineer between or amongst such premises accordingly in accordance with paragraph (c) of section six of the Amendment Act, 1906.
