SCHEDULE.

Schedule.

SUBSIDIES PAYABLE TO HOSPITAL BOARDS IN RESPECT OF MAINTENANCE EXPENDITURE.

1. In this Schedule the expression "maintenance expenditure" means all expenditure other than capital expenditure.

2. For the purposes of this Schedule the capital value of the rateable property in a hospital district shall be deemed and taken to be the amount certified by the Valuer-General as being approximately correct as on the first day of April in the financial year in which the levy on its contributory local authorities is made by the Hospital Board.

3. (1.) Subject to the provisions of this Schedule, the levy made by any Board for maintenance purposes on its contributory local authorities shall consist of the sum of—

- (a.) An amount equal to sixteen-fortieths of the net estimated expenditure of the Board for maintenance purposes; and
- (b.) An amount bearing to four-fortieths of the net estimated expenditure for maintenance purposes of all Boards during the preceding year the same proportion as the capital value of the rateable property in the district of the Board in question bears to the capital value of the rateable property in all hospital districts.

(2.) If the levy for any year, determined in accordance with the foregoing provisions, is more than twenty thirty-fourths of the net estimated expenditure of the Board for maintenance purposes for that year, the amount of the levy shall be reduced accordingly to twenty thirty-fourths of such net estimated expenditure.

(3.) If the levy for any year, determined in accordance with the foregoing provisions, is less than twenty forty-sixths of the net estimated expenditure of the Board for maintenance purposes for that year, the amount of the levy shall be increased accordingly to twenty forty-sixths of such net estimated expenditure.

4. The subsidy payable to any Board in respect of its maintenance expenditure shall be the difference between its net estimated expenditure for maintenance purposes and the levy determined in accordance with the foregoing rules.

5. The rate of subsidy is the amount of subsidy payable in respect of each £1 of levy.

6. The subsidy payable in accordance with the foregoing rules shall be payable in the first place at a rate calculated to the nearest penny per pound of levy, and all adjustments necessary to give full effect to the provisions herein shall be made as soon as practicable thereafter.

ADJUSTMENTS AS BETWEEN SUBSIDY AND LEVY IN ANY YEAR CONSEQUENT ON
PAYMENT OF EXCESSIVE OR DEFICIENT SUBSIDY FOR PRECEDING YEAR.

7. (1.) Where the total amount of subsidy for any year, calculated in accordance with the foregoing rules, is less than the total levy of all Boards for that year, there shall in the next succeeding year be paid to each Board, out of the Consolidated Fund, without further appropriation, an amount (in satisfaction of the deficiency of the subsidy paid for the preceding year) bearing to the total amount of the deficiency for the preceding year the same proportion as the capital value of the rateable property in the district of the Board bears to the capital value of the rateable property in all hospital districts.

(2.) The amount payable as aforesaid to any Board in any year in satisfaction of any deficiency of the subsidy paid for the preceding year shall be taken into account in estimating its receipts for that year.

8. (1.) Where the total amount of subsidy for any year, calculated in accordance with the foregoing rules, exceeds the total levy of all Boards for that year, there shall in the next succeeding year be payable by each Board to the Consolidated Fund an amount (as a set-off against the over-payment of subsidy for the preceding year) bearing to the total amount of the excess for the preceding year the same proportion as the capital value of the rateable property in the district of the Board bears to the capital value of the rateable property in all hospital districts.

(2.) The amount payable by any Board to the Consolidated Fund in any year as a set-off against any excess of subsidy paid for the preceding year shall be taken into account in estimating its expenditure for that year.

9. For the purposes of the two last preceding clauses the expression "the total amount of the deficiency" or "the total amount of the excess" means the difference between the total amount of the subsidy for all Boards in any year and the total amount of the levy of all Boards for that year.
